Author/Title Index

(Volume 23)

Algina, James, & Keselman, H.J. *A Power Comparison of the Welch-James and Improved General Approximation Tests in the Split-Plot Design*, No. 2, p. 152

Armstrong, Ronald D., Jones, Douglas H., & Wang, Zhaobo. *Optimization of classical Reliability in Test Construction*, No. 1, p. 1

Bradlow, Eric T. & Thomas, Neal. *Item Response Theory Models Applied to Data Allowing Examinee Choice*, No. 3, p. 236

Cohen, Allan S. See Kim, Seock-Ho

Delaney, Harold D. See Vargha, András

Douglas, Jeff, Kim, Hae Rim, Habing, Brian & Gao, Furong. *Investigating Local Dependence With Conditional Covariance Functions*, No. 2, p. 129

Eid, Michael & Hoffmann, Lore. *Measuring Variability and Change With an Item Response Model for Polytomous Variables*, No. 3, p. 193

Gao, Furong. See Douglas, Jeff.

George, Rani. See Kaplan, David.

Goldstein, Harvey. See Hill, Peter W.

Habing, Brian. See Douglas, Jeff.

Hancock, Gregory R. See Klockars Alan J.

Hanson, Bradley A. *Uniform DIF and DIF Defined by Difference in Item Response Functions*, No. 3, p. 244

Hill, Peter W. and Goldstein, Harvey. *Multilevel Modeling of Educational Data With Cross-Classification and Missing Identification of Units*, No. 2, p. 117

Huynh, Huynh. *On Score Locations of Binary and Partial Credit Items and Their Applications to Item Mapping and Criterion-Referenced Interpretation*, No. 1, p. 35

Jiang, Hai & Stout, William. *Improved Type I Error Control and Reduced Estimation Bias for DIF Detection Using SIBTEST*, No. 4, p. 290

Jones, Douglas H. See Armstrong, Ronald D.

Kaplan, David & George, Rani. *Evaluating Latent Variable Growth Models Through Ex Post Stimulation*, No. 3, p. 216

Kasim, Rafa M. & Raudenbush, Stephen W. *Application of Gibbs Sampling to Nested Variance, Components Models With Heterogeneous Within-Group Variance*, No. 2, p. 93

Katz, Irvin R., Martinez, Michael E., Sheehan, Kathleen M. & Tatsuoka, Kikumi K. *Extending the Rule Space Methodology to a Semantically-Rich Domain: Diagnostic Assessment in Architecture*, No. 3, p. 254

Keselman, H.J. See Algina, James

Kim, Hae Rim. See Douglas, Jeff.

Kim, Seock-Ho & Cohen, Allan S. *On the Behrens-Fisher Problem: A Review*, No. 4, p. 355

Klockars, Alan J. & Hancock, Gregory R. *A More Powerful Post Hoc Multiple Comparison Procedure in Analysis of Variance*, No. 3, p. 279

Lewis, Charles. See Stocking, Martha L.

Lore, Hoffmann. See Eid, Michael.

Martinez, Michael E. See Katz, Irvin R.

Raudenbush, Stephen. See Kasim, Rafa M.

Sheehan, Kathleen M. See Katz, Irvin R.

Singer, Judith D. *Using SAS PROC MIXED to Fit Multilevel Models, Hierarchical Models, and Individual Growth Models*, No. 4, p. 322

Stocking, Martha L., & Lewis, Charles. *Controlling Item Exposure Conditional on Ability in Computerized Adaptive Testing*, No. 1, p. 57

Stout, William. See Jiang Hai

Tatsuoka, Kikumi K. See Katz, Irvin R.

Thomas, Neal. See Bradlow, Eric T.

Van der Linden, Wim. *A Decision Theory Model for Course Placement*, No. 1, p. 18

Vargha, András & Delaney, Harold D. *The Kruskal-Wallis Test and Stochastic Homogeneity*, No. 2, p. 170

Wang, Zhaobo. See Armstrong, Ronald D.

Index of Book Reviews

Mega-Review: Books on Meta-Analysis, *by Betsy Jane Becker and Synthesis Research Group (SynRG)*, No. 1, p. 77
